## CALL FOR PROPOSALS

**Funding program YOUNG PEOPLE remember**  
**Funding line: Bi- and Multilateral Youth Encounters at Historical Sites of National Socialist Persecution and Extermination**  
**Funding countries: Germany, other European countries, and Israel**  
**Application deadline: March 24, 2020**

**Coming to terms with Nazi tyranny and fighting racism, anti-Semitism, anti-Gypsyism, and homophobia are important foundations of our democracy and liberal society. The YOUNG PEOPLE remember federal program aims to provide greater support for commemorative institutions and the remembrance of Nazi injustice and enable more young people to engage with history. The EVZ Foundation implements internationally oriented parts of the YOUNG PEOPLE remember federal program with funding from the Federal Foreign Office.**

By promoting international encounters between young people, the program aims to strengthen factual knowledge of the causes, developments, and dimensions of National Socialist crimes. In this context, particular importance is attached to developments ranging from devaluation and exclusion to the dehumanization of certain groups. The relevance of history and historical awareness and their relationship to the world young people live in is to play a key role in the projects. Through personal encounters at historical locations and engagement with historical events and experiences, the EVZ Foundation also strives to contribute to strengthening the European idea. It is important that the project work includes the broad spectrum of historical sites of Nazi persecution and extermination in Central and Eastern Europe (e.g. former ghettos, forced labor camps, concentration camps, mass execution sites). Developing and testing new methods and formats for encounters between young people is the focus of this call for proposals.

### GOALS

- Promoting engagement with the history of National Socialism through international youth encounters at historical sites of National Socialist persecution and extermination in Germany and other European countries for the development of a critical historical consciousness
- Promoting the European idea through personal encounters and engaging with different narratives in European cultures of remembrance
- Providing young people with active access to Nazi history, which takes into account the diversity of biographies and today's ways of life and experience worlds
- Strengthening defenses against anti-Semitic and other inhuman tendencies
- Developing and testing new methods and formats of historical-political education for international youth encounters

## FUNDING

800,000 euros are available for this funding line in the YOUNG PEOPLE remember funding program. We support projects by providing funding in the amount of 30,000 to 90,000 euros. Funding for personnel and non-personnel costs is possible. We expect state and municipal institutions to make an appropriate contribution of their own. The contribution of third-party funds is also possible.

## START AND COURSE OF THE PROJECT

You will start your project on June 01, 2020 and complete it after 18 months.

## BILATERAL AND MULTILATERAL ENCOUNTER PROJECTS

We will fund bilateral and multilateral encounters between youths and young adults at historical sites of Nazi persecution in Europe. In the process, approaches are to be tested that take particular account of the reference to the everyday lives of young people and different narratives of history and remembrance.

Ideally, the encounters should begin or strengthen long-term cooperation between educational institutions and memorials and places of remembrance in Germany, other European countries, and Israel. The drafting of a corresponding cooperation agreement may be part of the project, but is not a condition of approval.

**We expect a conceptual project idea** for a project duration of 18 months: Please devise a concept for the content and organization of various trips to the countries of the young people involved.

### The following aspects must be taken into account:

- Encounters at a minimum of two historical sites of National Socialist persecution or extermination in Europe are to be at the center of each encounter project.
- At least one meeting must take place at a historical site in Central or Eastern Europe (not in Germany).
- At least one encounter must take place at a historical site in Germany.
- There must be participating youth groups in the countries visited.
- Reciprocal project visits by young people to the participating countries are a prerequisite in order to allow for multi-perspectivity, with the exception of international summer camps and projects involving more than three countries.
- In addition, further encounters at other historical sites of Nazi persecution or extermination in Germany and other Western European countries can take place within a project.
- With regard to projects involving Israeli youth groups and educational organizations, encounters in Israel are also possible.

- Several encounter projects with different youth groups can take place as part of an overall project.
- In your concept, please explain the different formats and methods you would like to implement for the youth encounters.

## FORMATS

### We fund projects that

- develop and test contemporary formats of historical education at historical sites, incorporating or expanding on proven project forms and methods (e.g. artistic formats such as theater, performance, music, film, video, festivals, bar camps, and digital tools in the social media sector)
- involve young people to a large extent in the design and implementation of projects.

## WHO CAN PARTICIPATE?

The projects are open to youths and young adults aged between 14 and 27. The call is aimed at school students, university and college students, and young people from different professional and technical backgrounds, such as young artists, police cadets, trainees, or young professionals of all professions.

## WHO CAN APPLY?

We support non-profit organizations and institutions under state and municipal sponsorship from Germany, other European countries, and Israel that are active in formal and non-formal education and have experience in working on the history of National Socialism (e.g. youth education centers, youth centers, schools, universities, memorials,

historical learning sites, museums, associations, cultural institutions, and other civil society stakeholders).

Applicant organizations may have their headquarters in Germany, other European countries, or Israel. However, it is a prerequisite that a German organization is involved in the project either as an applicant or as a cooperation partner. The cooperation of different project sponsors must also be identifiable in the project cost plan. The project executing agencies must ensure that the project is bilateral or multilateral by providing a suitable team or cooperation with other agencies. When visiting historical sites of Nazi persecution and extermination, an educational institution in the respective country should always be included as a cooperation partner (e.g. the educational department of a concentration camp memorial). During the application phase, the field should be explored with regard to potential partnerships.

## NETWORKING AND QUALIFICATION

The funded projects are accompanied by transnational networking and further education meetings on youth-relevant topics in the field of remembrance culture. Your experience also serves the further development of our support program, so we evaluate the projects with you. Our working language is English. Please plan for about two such events during the course of the project. The costs for travel and accommodation are covered by the EVZ Foundation.

## APPROVAL PROCEDURE

Grants to German applicants will be awarded on the basis of an approval letter; an agreement will be concluded with applicants who are not based in Germany. The language of the agreement is German.

## DISBURSEMENT PROCEDURE AND REPORT

The payment of the approved funds shall be made within four weeks upon receipt of a call for funds, which is part of the approval letter or agreement. The report (proof of use) must be submitted two months after the project has ended. It is to include a factual report, a financial report, a list of participants, and, if applicable, documentation of the project results. You will receive the corresponding templates with the approval letter or the agreement.

## DECISION-MAKING PROCEDURE

Applications can be submitted in German or English. Please submit your **project application** by e-mail to [jugenderinnert@stiftung-evz.de](mailto:jugenderinnert@stiftung-evz.de) by **March 24, 2020**. Please use only the Foundation's forms for this purpose. We can offer you advice on how to apply.

**We look forward to your project ideas!**
